

EUCALYPTUS DIVES

Eucalyptus dives

Aromatic molecules : piperitone, α -phellandrene

Distilled organ : leaf

Its use is reserved for older children and adults because its irrational use could highlight its neurotoxicity. Eucalyptus dives provides an essential oil that is indispensable for all synergies aimed at treating diseases wherein a mucous process blocks the respiratory track or the ear, nose and throat.

Traditionally known for its properties

anticatarrhal, mucolytic • lipolytic • hepatic and renal drainage • antibacterial.

Professional advice

- external : always dilute: 2 drops CTEO + 2 drops apricot kernel oil or hazelnut oil, 3 times a day on the affected skin area.
- in an electric diffuser: 5 ml of eucalyptus radiata and 2 ml of mint eucalyptus to purify the atmosphere.

++++ Highly recommended - (!) Use with caution
